### BERK-TEK, A NEXANS COMPANY

Berk-Tek has spent the last 50 years maximizing the capabilities of cabling systems. This focus has enabled us to develop innovative cabling that addresses the particular needs of enterprise, campus and data center networks, including high-speed transport, high-density installations and rapid deployment.

The products offered by Berk-Tek lead the industry in performance, reliability and robustness. Independent verification to product specifications, not just industry standards, offers customers an added level of certainty of the quality being delivered.
